<b>Background Summary:</b>  Resolution No. 4434 sets the date of the public hearing for the NW Pipeline G.P. Public Way Agreement #08-27 for January 20, 2009 at 7:30 pm in Council Chambers.  Public Way Agreement #08-27 is attached as back up documentation for Resolution No. 4434. Per Auburn City Code Chapter 20.04.010, a public way agreement shall be required of any commercial utility or telecommunications provider who desires to occupy specific public ways of the city for the sole purpose of providing commercial utility or telecommunications services to persons or areas outside the city.  NW Pipeline G.P. currently operates a high pressure natural gas pipeline through Auburn. They have applied to the City for a Public Way Agreement for the right of entry, use, and occupation of certain public rights-of-way within the City of Auburn for two existing natural gas pipeline facilities, a 30-inch and a 36-inch pipeline. The majority of the 30-inch pipeline was constructed in 1971, except approximately 4,500' that was constructed in 2005. The 36-inch pipeline was constructed in 2003. These pipelines are for transmission purposes and do not service area residents. There are approximately 703 parcels located inside the Auburn city limits within a quarter mile of those portions of the pipeline subject to the Public Way Agreement. Approximately 405 of those parcels have a residential address associated with them.  W0105-2 O3.10.9

The Public Way Agreement covers these existing facilities in Auburn and requires the applicant to carry a minimum of \$100,000,000 in insurance. Additionally, the agreement requires that the applicant maintain a security bond with the City ensuring that they will remain in compliance with the terms of the agreement. As a provision of the public way agreement, upon the request of the City, Northwest Pipeline G.P. shall meet with the VRFA, the Auburn Police Department and the City's Emergency Management Office to coordinate emergency management operations and at least once a year, at the City's request, participate in emergency preparedness drills or planning sessions. Northwest Pipeline G.P. shall also provide to the City, upon acceptance of this agreement, a copy of its emergency response plans and procedures. Please note that under federal law the City has no authority over the safety and maintenance of the pipelines, which is regulated by the U.S. Department of Transportation Pipeline Safety Regulations and Federal Energy Regulatory Commission (FERC). The City's authority over the pipelines is strictly limited to regulating their physical presence in the City's rights-of-way.

### **Section 3. Non-Public Way Area City Property**

### **Section 4. Nonexclusive Agreement**

- 4.1 This Agreement is not, and shall not be deemed to be, an exclusive Public Way Agreement. This Agreement shall not in any manner prohibit the City from granting other and further Public Way Agreements or Franchises upon, under, and across the Public Way that do not hinder or interfere with NWP's rights under this Agreement. This Agreement shall not prohibit or prevent the City from using the Public Way for any lawful purpose or affect the jurisdiction of the City over the same or any part thereof.

## **Section 5. Installation/Noninterference of Facilities/Restoration**

- 5.1 All work performed by NWP within the Public Way shall be performed in accordance with the permit(s) issued by the City, in compliance with the City Code and Standards, together with all applicable federal laws and regulations, and the laws and regulations of the State of Washington, the provisions of any applicable City codes, ordinances, regulations, standards and procedures as now exist or as may be hereafter amended or superseded. Work within the Public Way which directly affects NWP's construction, operation, and maintenance of NWP Facilities shall be performed in accordance with Federal law and regulation.
- 5.2 NWP Facilities shall be located and maintained within the Public Way so as not to interfere with the free passage of pedestrian and/or vehicle traffic therein, or with the reasonable ingress or egress to the properties abutting the Public Way as they exist at the time of installation of the NWP Facilities.
- 5.3 NWP shall restore the surface of the Public Way that is disturbed or damaged by the performance of this Agreement to at least the same condition as existed immediately prior to any such work. The City shall have final approval of the condition of the Public Way after restoration pursuant to the provisions of applicable City codes, ordinances, regulations, standards, policies, and procedures as now exist or as may be hereafter amended or superseded.
- 5.4 The City may at any time perform or have performed any and all work that it considers necessary to restore to a safe condition any area within the Public Way disturbed by NWP in the performance of this Agreement. NWP shall pay all reasonable costs of such work upon demand of the City.
- 5.5 NWP shall post a performance bond in the amount of \$2,000,000 (two million dollars) to ensure satisfactory restoration of the Public Way prior to the initiation of NWP's work therein.
- 5.6 Pursuant to ACC Chapter 20.10, the NWP shall provide the City with a security bond as specified in ACC Section 20.10.250, in a form and substance acceptable to the City, securing NWP's faithful compliance with the terms of this Public Way Agreement. Such guarantees shall be in the amount of fifty thousand dollars (\$50,000.00).
- 5.7 All survey monuments which are disturbed or displaced by NWP in its performance of any work under this Agreement shall be referenced and restored by NWP, as per WAC 332-120, as from time to time amended, and all pertinent federal, state, and local standards and specifications.
- 5.8 In the event NWP permanently ceases use of any of the NWP Facilities within the Public Way, NWP shall (subject to any necessary approval(s) and/or order(s) to be provided by the Federal Energy Regulatory Commission concerning abandonment) within one hundred and eighty (180) days or within such additional

time as is agreed to between the parties after such permanent cessation of use, remove such Facilities at the sole cost and expense of NWP; provided that with the express written consent of the City, NWP may leave such Facilities in place subject to the conditions set forth in this section. Any such Facilities to be left in place shall be made inert by purging all natural gas from such Facilities (including displacement of natural gas with an appropriate inert gas) and disconnecting and sealing such Facilities, all in compliance with applicable regulations and industry standards. The City's consent shall not relieve NWP of the obligation and/or costs to subsequently remove or alter such Facilities in the event the City reasonably determines that such removal or alteration is necessary or advisable for the health and safety of the public, in which case NWP shall perform such work at no cost to the City. The obligations contained in this Section shall survive the expiration, revocation, or termination of this Agreement.

## **Section 6. Relocation of Facilities**

- 6.1 Whenever the City causes the construction of any Public Works Project within the Public Way and such construction necessitates the relocation of NWP's Facilities from their existing location to a new location within the Public Way, such relocation shall be accomplished by NWP at no cost to the City. Such alternate location for relocation of NWP's facilities shall be determined and approved jointly by the City and NWP at no cost to the City. To the extent practicable, the City may (but is not required to) provide an alternate location for such relocation of NWP's facilities at no additional cost to NWP.
- 6.2 In the event an emergency posing a threat to public safety or welfare requires the relocation of NWP's Facilities within the Public Way, the City shall give NWP notice of the emergency as soon as reasonably practicable. Upon receipt of such notice from the City (and subject to the issuance of any necessary order(s) of the Federal Energy Regulatory Commission), NWP shall endeavor to respond as soon as reasonably practicable to relocate the affected Facilities.
- 6.3 Whenever any Third Party requires and requests the relocation of NWP's Facilities to accommodate work of such Third Party within the Public Way, NWP shall have the right as a condition of any such relocation to require payment by the Third Party to NWP, at a time and upon terms acceptable to NWP, for any and all costs and expenses incurred by NWP in the relocation of NWP's Facilities. Any contractor doing work pursuant to contract with the City shall not be considered a Third Party for purposes of this section.
- 6.4 Any condition or requirement imposed by the City upon any Third Party (including, but not limited to, any condition or requirement imposed pursuant to any contract or in conjunction with approvals or permits obtained pursuant to any zoning, land use, construction or other development regulation) which requires the relocation of NWP's Facilities within the Public Way shall be a condition or requirement causing relocation of NWP's Facilities to occur subject to the

provisions of Section 6.3 above; provided, however in the event the City reasonably determines and notifies NWP that the primary purpose of imposing such condition or requirement upon such Third party is to cause or facilitate the construction of a Public Works Project to be undertaken within a segment of the Public Way on the City's behalf and consistent with the City's Capital Facility Plan; Transportation Improvement Program, then only those costs and expenses incurred by NWP in reconnecting such relocated Facilities with other Facilities shall be paid to NWP by such Third Party, and NWP shall otherwise relocate its Facilities within such segment of the Public Way in accordance with this Agreement.

- 6.5 As to any relocation of NWP's Facilities whereby the cost and expense thereof is to be borne by NWP in accordance with this Section 6, NWP may, after receipt of written notice requesting such relocation, submit in writing to the City alternatives to relocation of its Facilities. Upon the City's receipt from NWP of such written alternatives, the City shall evaluate such alternatives and shall advise NWP in writing if one or more of such alternatives are suitable to accommodate the work which would otherwise necessitate relocation of NWP's Facilities. In evaluating such alternatives, the City shall give each alternative proposed by NWP full and fair consideration with due regard to all facts and circumstances which bear upon the practicality of relocation and alternatives to relocation. In the event the City reasonably determines that such alternatives are not appropriate, NWP shall relocate its Facilities as otherwise provided in this Agreement.
- 6.6 Nothing in this Section 6 shall require NWP to bear any cost or expense in connection with the relocation of any Facilities under benefit of easement independent of this Agreement or other rights not arising under this Agreement, nor shall anything in this Section 6 require the City to bear any such cost or expense. Nothing in this Section 6 shall be construed to be a waiver of any right of either NWP or the City to contest any claim or assertion by the other of responsibility to pay such cost or expense.

## **Section 7. Vacation of City Streets**

- 7.1 If, at any time, the City shall vacate any City street and/or right-of-way which is subject to the rights granted by this Agreement and said vacation shall be for the purpose of acquiring the fee or other property interest in said road and/or rights-of-way for the use of the City, in either its proprietary or governmental capacity, then the City Council may at its option and by giving two hundred fifty (250) days' written notice to NWP, terminate this Agreement with reference to such City road and/or rights-of-way so vacated, and the City shall not be liable for any damages or loss to NWP by reason of such termination.
- 7.2 Prior to vacation of any City roads and/or rights-of-way, the City will make best efforts to (but shall not be required to) grant to NWP an easement or other

property right sufficient in size and scope for the existing Facilities contained in the vacated road and/or right-of-way.

## **Section 8. Records of Installation and Planning**

- 8.1 Upon the City's request, NWP shall provide to the City copies of any plans prepared by NWP for initial installation, improvements, relocations and conversions to its Facilities within the Agreement Area; provided, however, any such plans so submitted shall be for informational purposes only and shall not obligate NWP to undertake any specific improvements within the Public Way, nor shall such plan be construed as a proposal to undertake any specific improvements within the Public Way. To the extent permitted by applicable law, and as otherwise provided herein, the City will attempt to keep said plans confidential and protected from public disclosure inasmuch as they contain Critical Energy Infrastructure and Safety Sensitive Information which are protected from public disclosure under federal law.
- 8.2 Upon the City's request, NWP shall provide to the City copies of available drawings in use by NWP showing the location of its Facilities at specific locations within the Public Way. As to any such drawings so provided, NWP does not warrant the accuracy thereof and, to the extent the locations of Facilities are shown, such Facilities are shown in their approximate location. To the extent permitted by applicable law, and as otherwise provided herein, the City will attempt to keep said drawings confidential and protected from public disclosure inasmuch as they contain Critical Energy Infrastructure and Safety Sensitive Information which are protected from Public disclosure under federal law..
- 8.3 Upon the City's reasonable request, in connection with the design of any Public Works Project, NWP shall verify the location of its underground Facilities within the Public Way by excavating (e.g., potholing) at no expense to the City. In the event NWP performs such excavation, the City shall not require any restoration of the disturbed area in excess of restoration to the same condition as existed immediately prior to the excavation.
- 8.4 Any drawings and/or information concerning the location of NWP's Facilities provided by NWP are considered to contain Critical Energy Infrastructure and Safety Sensitive Information under federal law and shall be used by the City solely for management of the Public Way. The City shall take all reasonable steps necessary to prevent disclosure or dissemination of such drawings and/or information to any Third Party, without the prior express consent of NWP, to the extent permitted by law; provided that NWP expressly acknowledges and agrees that all and/or parts of any and all such drawings and/or information received by the City from NWP may be subject to public disclosure, pursuant to Washington State law (including, RCW 42.56). While the City will take reasonable steps to attempt to prevent the disclosure of drawings, information, and/or materials that the City believes to be confidential, the City cannot and does not represent and/or

guarantee that any specific drawings and/or information will not be released, even if the release of such drawings and/or information may be (or may arguably be) exempt or otherwise preventable by law.

- 8.5 Notwithstanding the foregoing, nothing in this Section 9 is intended (nor shall be construed) to relieve either party of their respective obligations arising under applicable law with respect to determining the location of the NWP Facilities.

## **Section 9. Coordination, Shared Excavations**

- 9.1 NWP and the City shall each exercise best reasonable efforts to coordinate any construction work that either may undertake within the Public Way so as to promote the orderly and expeditious performance and completion of such work as a whole. Such efforts shall include, at a minimum, reasonable and diligent efforts to keep the other party and other utilities within the Public Way informed of its intent to undertake such construction work. NWP and the City shall further exercise best reasonable efforts to minimize any delay or hindrance to any construction work undertaken by themselves or other utilities within the Public Way.
- 9.2 If, at any time or from time to time, either NWP or the City shall cause excavations to be made within the Public Way, the party causing such excavation to be made shall afford the other, upon receipt of a written request to do so, an opportunity to use such excavation, provided that: (1) such joint use shall not unreasonably delay the work of the party causing the excavation to be made; and (2) such joint use shall be arranged and accomplished on terms and conditions satisfactory to both Parties.

## **Section 10. Default; Remedies, and Dispute Resolution**

- 10.1 If there is any dispute or alleged default with respect to performance under this Agreement, the City shall notify NWP in writing, stating with reasonable specificity the nature of the dispute or alleged default. Within seven (7) days of its receipt of such notice, NWP shall provide written response to the City that shall acknowledge receipt of such notice and state NWP's intentions with respect to how NWP shall respond to such notice. NWP shall further have thirty (30) days (the "cure period") from its receipt of such notice to:
- A. Respond to the City, contesting the City's assertion(s) as to the dispute or any alleged default and requesting a meeting, or;
  - B. Resolve the dispute or cure the default, or;
  - C. Notify the City that NWP cannot resolve the dispute or cure the default within thirty (30) days, due to the nature of the dispute or alleged default. Notwithstanding such notice, NWP shall promptly take all reasonable steps to begin to resolve the dispute or cure the default and notify the City

in writing and in detail as to the actions that will be taken by NWP and the projected completion date. In such case, the City may set a meeting in accordance with Section 10.2.

- 10.2 If any dispute is not resolved or any alleged default is not cured or a meeting is not requested or set in accordance with Section 10.1, then the City shall promptly schedule a meeting between the City and NWP to discuss the dispute or any alleged default. The City shall notify NWP of the meeting in writing and such meeting shall take place not less than ten (10) days after NWP's receipt of notice of the meeting. Each Party shall appoint a representative who shall attend the meeting and be responsible for representing the Party's interests. The representatives shall exercise good faith efforts to resolve the dispute or reach agreement on any alleged default and/or any corrective action to be taken. Any dispute (including any dispute concerning the existence of or any corrective action to be taken to cure any alleged default) that is not resolved within ten (10) days following the conclusion of the meeting shall be referred by the Parties' representatives in writing to the senior management of the Parties for resolution. In the event senior management is unable to resolve the dispute within twenty (20) days of such referral (or such other period as the Parties may agree upon), each Party may pursue resolution of the dispute or any alleged default through other legal means consistent with this Agreement. All negotiations pursuant to these procedures for the resolution of disputes shall be confidential and shall be treated as compromise and settlement negotiations for purposes of the state and federal rules of evidence.
- 10.3 If, at the conclusion of the steps provided for in Section 11.1 and 11.2 above, the City and NWP are unable to settle the dispute or agree upon the existence of a default or the corrective action to be taken to cure any alleged default, the City or NWP (as NWP may have authority to do so) may:
- A. Take any enforcement or corrective action provided for in City code, as from time to time amended; provided such action is not otherwise in conflict with the provisions of this Agreement, and State and/or Federal law, and/or;
  - B. Declare an immediate forfeiture of this Agreement for a breach of any material obligations under this Agreement and/or;
  - C. Take such other action to which it is entitled under this Agreement or any applicable law.
  - D. Pursue any Alternative Remedies as provided in Section 11.
- 10.4 In the event that any litigation should arise concerning the construction or interpretation of any of the terms of this agreement, the venue of such action or litigation shall be in the Superior Court of the State of Washington in and for the County of King. This provision shall not affect NWP's right to bring necessary

actions in federal court under the Natural Gas Act or other federal law should it be required to exercise its right of eminent domain or exercise other rights and privileges granted to it under federal law. This Agreement shall be governed by applicable Federal law, and the laws of the State of Washington.

- 10.5 Unless otherwise agreed by the City and NWP in writing, the City and NWP shall, as may be reasonably practicable, continue to perform their respective obligations under this Agreement during the pendency of any dispute.

#### **Section 11. Alternative Remedies**

No provision of this Agreement shall be deemed to bar the right of the City or NWP to seek or obtain judicial relief from a violation of any provision of the Agreement or any rule, regulation, requirement or directive promulgated thereunder for non-arbitrable claims. Neither the existence of other remedies identified in this Agreement nor the exercise thereof shall be deemed to bar or otherwise limit the right of the City or NWP to recover monetary damages for such violations by the other party, or to seek and obtain judicial enforcement of the other Party's obligations by means of specific performance, injunctive relief or mandate, or any other remedy at law or in equity.

#### **Section 12. Indemnification**

- 12.1 NWP shall indemnify, defend and hold the City, its appointed and elective officials, agents, officers, employees, and volunteers harmless from and against any and all claims, demands, liability, loss, cost, damage or expense of any nature whatsoever including all costs and attorney's fees, made against the City, its agents, officers or employees on account of injury, harm, death or damage to persons or property which is caused by, in whole, or in part, and then only to the extent of the negligent acts or omissions of NWP or its agents, servants, employees, contractors, or subcontractors in the exercise of the rights granted to NWP by this Agreement. Provided, however, such indemnification shall not extend to that portion of any claims, demands liability, loss, cost, damage or expense of any nature whatsoever including all costs and attorney's fees caused by the sole negligence of the City, its appointed and elective officials, agents, officers, employees, and volunteers.
- 12.2 NWP shall indemnify, defend and hold the City, its appointed and elective officials, agents, officers, employees, and volunteers harmless from and against any and all claims, demands, liability, loss, cost, damage or expense of any nature whatsoever including all costs and attorney's fees, made against the City on account of violation of any environmental laws applicable to the NWP Facilities, or from any release of natural gas or Hazardous Substances on or from the NWP Facilities. This indemnity includes, but is not limited to: (a) liability for a governmental agency's costs of removal or remedial action for hazardous substances; (b) damages to natural resources caused by hazardous substances,

including the reasonable costs of assessing such damages; (c) liability for any other person's costs of responding to hazardous substances; and (d) liability for any costs of investigation, abatement, correction, cleanup, fines, penalties, or other damages arising under any environmental laws.

12.3 NWP's indemnification obligations include assuming potential liability for actions brought by NWP's own employees and the employees of NWP's agents, representatives, contractors, and subcontractors even though NWP might be immune under Title 51 RCW from direct suit brought by such employees. It is expressly agreed and understood that this assumption of potential liability for actions brought by the aforementioned employees is limited solely to claims against the City arising by virtue of NWP's exercise of the rights set forth in this Agreement. The obligations of NWP under this section have been mutually negotiated by the Parties, and NWP acknowledges that the City would not enter into this Agreement without NWP's waiver. To the extent required to provide this indemnification and this indemnification only, NWP waives its immunity under Title 51 RCW as provided in RCW 4.24.115.

12.4 In the event any claim is filed with the City, for which the City intends to assert its rights under this Section 13, the City shall notify NWP thereof within a reasonable time, and NWP shall have the right, at its election and at its sole cost and expense, to settle and compromise such claim as it pertains to NWP's responsibility to indemnify, defend and hold harmless the City, its agents, officers or employees; provided that, prior to any settlement, NWP shall consult with the City regarding any proposals or offers to settle the claim.
